

FCC/GET Back Jack's.

The traffic and weather offered by my favorite 'radio' service is the best. (Just like the rest of their programming.) Stop listening to lobbyists (shills) trying to save their old buddies. Let them find another cause that actually helps people. My wife commutes 70 miles each way to center city Philadelphia every day and finds the service invaluable. I applaud XM Traffic and Weather for helping her on her daily commute.
